## **Sterling and Wilson Solar Limited wins fifth project in Latin America**

*Signs order of 106.71 MW worth USD 62.6 mn in Chile*

**Mumbai; September 17, 2020:** Sterling and Wilson Solar Limited (BSE Scrip Code: 542760; NSE Symbol: SWSOLAR), today announced that it has signed an order of 106.71 MW worth USD 62.6 million (~INR 462 crores) in Chile. The order has been received from a global independent power producer (IPP), work for which is expected to begin in Q4 FY 2021.

Sterling and Wilson Solar Limited, one of the leading solar EPC and O&M players in the world, already has a strong presence in the region with one project of 93.3 MW in Argentina and three projects of 588 MW under construction in Chile.

Speaking on the project win, **Mr. Bikesh Ogra – Director and Global CEO, Sterling and Wilson Solar Limited** said, *“We are excited to win our fifth project in Latin America. Our continuous focus in the market has reaped rich benefits with these prestigious project wins. We have established ourselves in Latin America with a cumulative order book of around USD 488 million (~INR 3,558 crores), making us amongst the leading players in the region.*

Commenting on the Chilean market, **Mr. Ogra** added, *“Chile is one of Latin America’s fastest-growing economies in recent decades thanks to its solid macroeconomic framework. This coupled with a global race to energy transition enables increasing participation of foreign companies in the Chilean renewable energy market making it one of the key focus regions for us.”*

Sterling and Wilson Solar Limited has been executing projects globally and has to its credit more than 10.5 GW of solar power projects (commissioned and under various stages of construction) in various geographies. This portfolio includes a 1,177 MW Solar PV plant in Abu Dhabi - the world’s largest single-site solar plant. The Company also manages a portfolio of 7.8 GW of O&M projects globally, a testament to its best-in-class services.

**About Sterling and Wilson Solar Limited**

Sterling and Wilson Solar Limited, a Shapoorji Pallonji group company, is a global pure-play, end-to-end solar engineering, procurement and construction (EPC) solutions provider. The Company provides EPC services for utility-scale, rooftop and floating solar power projects with a focus on project design and engineering and manage all aspects of project execution from conceptualizing to commissioning. The Company also provides operations and maintenance (O&M) services, including for projects constructed by third parties and offers solar plus storage solutions to its customers. Present in 25 countries today, Sterling and Wilson Solar Limited has operations in India, South-East Asia, Middle East, Africa, Europe, the Americas and Australia.
